

CASH RECEIPTING

INTERFACES WITH

Accounts Receivable

Animal License

Business License

Cemetery Management

Court Management

General Ledger

Utility Management

ENHANCED WITH

Online Payment/Credit Card Interface

Clarity Cash Receipting is a time-saving must for any organization that needs to process customer payments.

Record all payments in one central location, print, and balance your deposit. Then push a button, sit back, and watch your payment information update to General Ledger and the other Caselle applications. Master Contacts make this process even more efficient by displaying customers' outstanding payments for all applications when you pull up their record to make payment for one application. A miscellaneous category also allows you to collect customer payments for convenience fees and other miscellaneous charges that do not apply to other Caselle applications, sending that information directly to General Ledger.

CAPABLE

- Automated Internet and credit card payments
- Comprehensive balancing registers
- User-defined payment categories

EFFICIENT

- Laborsaving entry corrections and voiding procedures
- Quick receipt entry setup and redisplay options
- Customer information inquiry
- Optional module to print endorsement information on checks
- Auto-generated deposit slips

FLEXIBLE

- Handle electronic cash drawers and check validation automatically.
- Create deposit for multiple bank accounts.
- Create user-defined fields.

POWERFUL

- Custom reporting
- Powerful search options
- Interactive task list
- Electronic document and image attachments
- Application, task, and field level security
- Print, save, and export all reports
- History and management tracking
