

## CHECK ON DEMAND

### INTERFACES WITH

Accounts Payable

Accounts Receivable

Animal License

Business License

Cemetery Management

Court Management

General Ledger

Improvement Districts

Payroll

Utility Management

Clarity Check on Demand is designed for any organization that needs to manually generate checks on the fly. Whether you need to create checks for utility retail deposits, a customer who is not a regular vendor, or any scenario in between, this software is the solution.

Quickly create a check for parties requesting immediate payment. Print the check and easily update the information to General Ledger. In addition, this flexible software allows you to import checks from both Caselle and non-Caselle applications, pulling the information into the required fields and saving you time while simplifying the payment process.

### CAPABLE

- Import checks and payee information from both Caselle and non-Caselle applications.
- Easily issue checks.

### EFFICIENT

- Reduce the need to record manual checks in General Ledger.
- Easily update transactions to General Ledger.
- Quickly pay your important vendor.
- Quickly issue refund checks to utility or accounts receivable customers.
- Enhanced Inquiry

### FLEXIBLE

- Update checks to General Ledger for bank and account balancing.
- Create user-defined fields.

### POWERFUL

- Custom reporting
- Powerful search options
- Interactive task list
- Electronic document and image attachments
- Application, task, and field level security
- Print, save, and export all reports
- History and management tracking
