Clarity Court Management is the solution every city needs to keep track of information associated with violations and court proceedings, from bail, to speeding tickets, to fishing and game licenses.

Streamline your unique court needs with the software's flexible options. Track individual fees for all offenses so you can see where the total was derived from. Set up individual pay schedules and adjust for community service instead of monetary payment. Choose how to handle bail money, which can be refunded, applied towards violation fees, or taken as forfeiture. Experience the power of this software in managing all your complex court needs.
