

UTILITY TAX CERTIFICATION

ENHANCES

Utility Management

INTERFACES WITH

General Ledger

The Clarity Utility Tax Certification module is the easy solution for the treasurer or billing clerk who needs to manage delinquent accounts for services that cannot be shut off.

With this module, you can collect amounts through a customer's taxes instead of writing off the unpaid amounts. Certify past due amounts and provide them to the county for collection when you are unable to shutoff services. This module also gives you the flexibility to create the necessary certification fees as fixed amounts or percentages.

CAPABLE

- Create and send customized certification notices to customers.
- Create tax certification information for designated time periods.
- Update account balances for certification amounts sent to county.

EFFICIENT

- Collect delinquent payments and adjust amounts as needed.
- Certify delinquent or current amounts for foreclosures.
- Use established reporting to track and report certification information.

FLEXIBLE

- Create certification fees as an amount or percentage.
- Create certifications on specific or all services.
- Create user-defined fields.

POWERFUL

- Custom reporting
- Powerful search options
- Interactive task list
- Electronic document and image attachments
- Application, task, and field level security
- Print, save, and export all reports
- History and management tracking
